

Digitale Sprache und Video im Internet

Kapitel 6.7 Migration zum VoIP-Einsatz

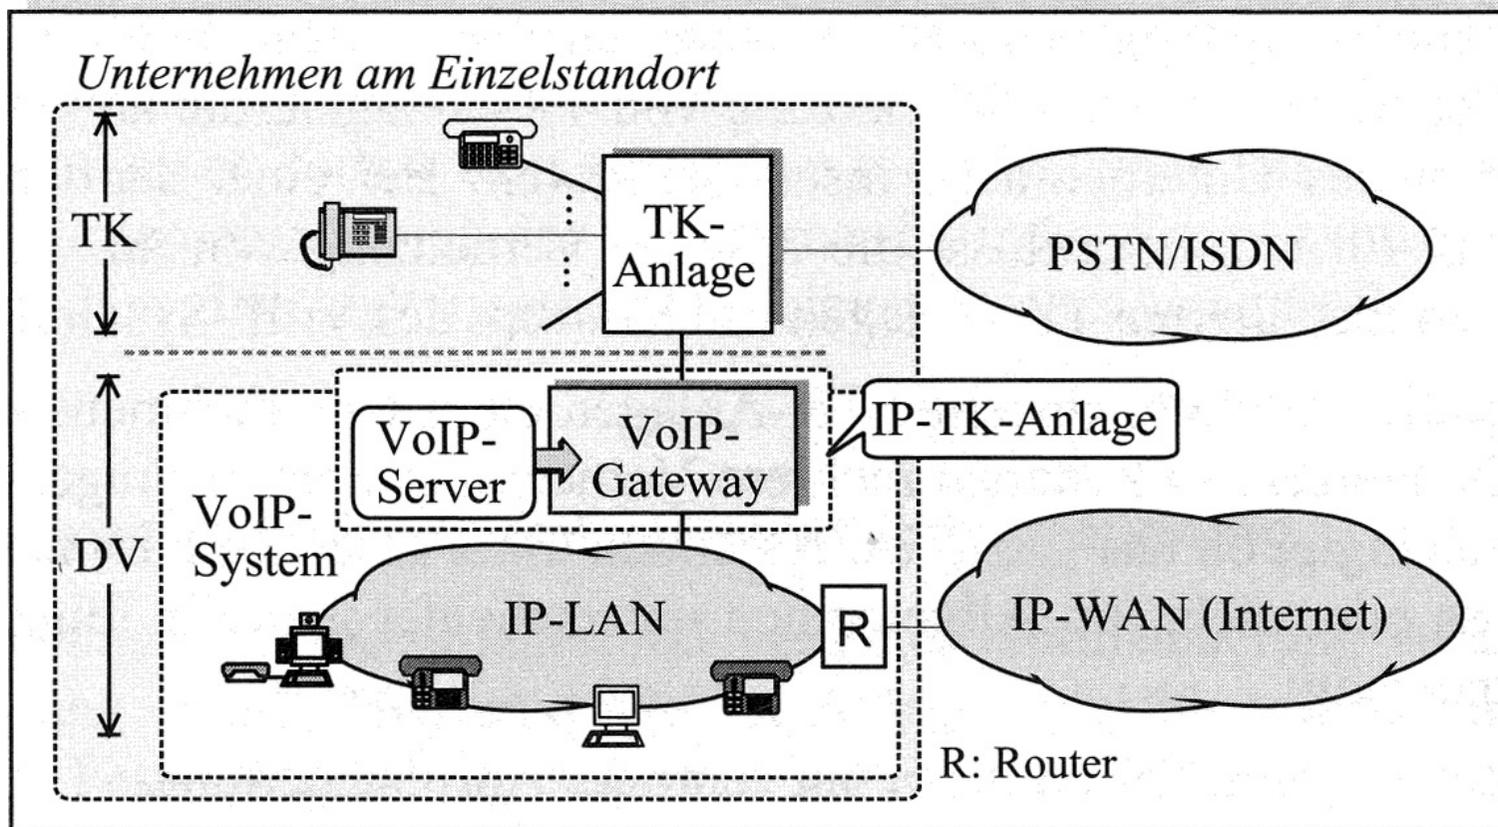

Migrationsfälle für VoIP-Einsatz

Architekturmodelle für VoIP-Systeme

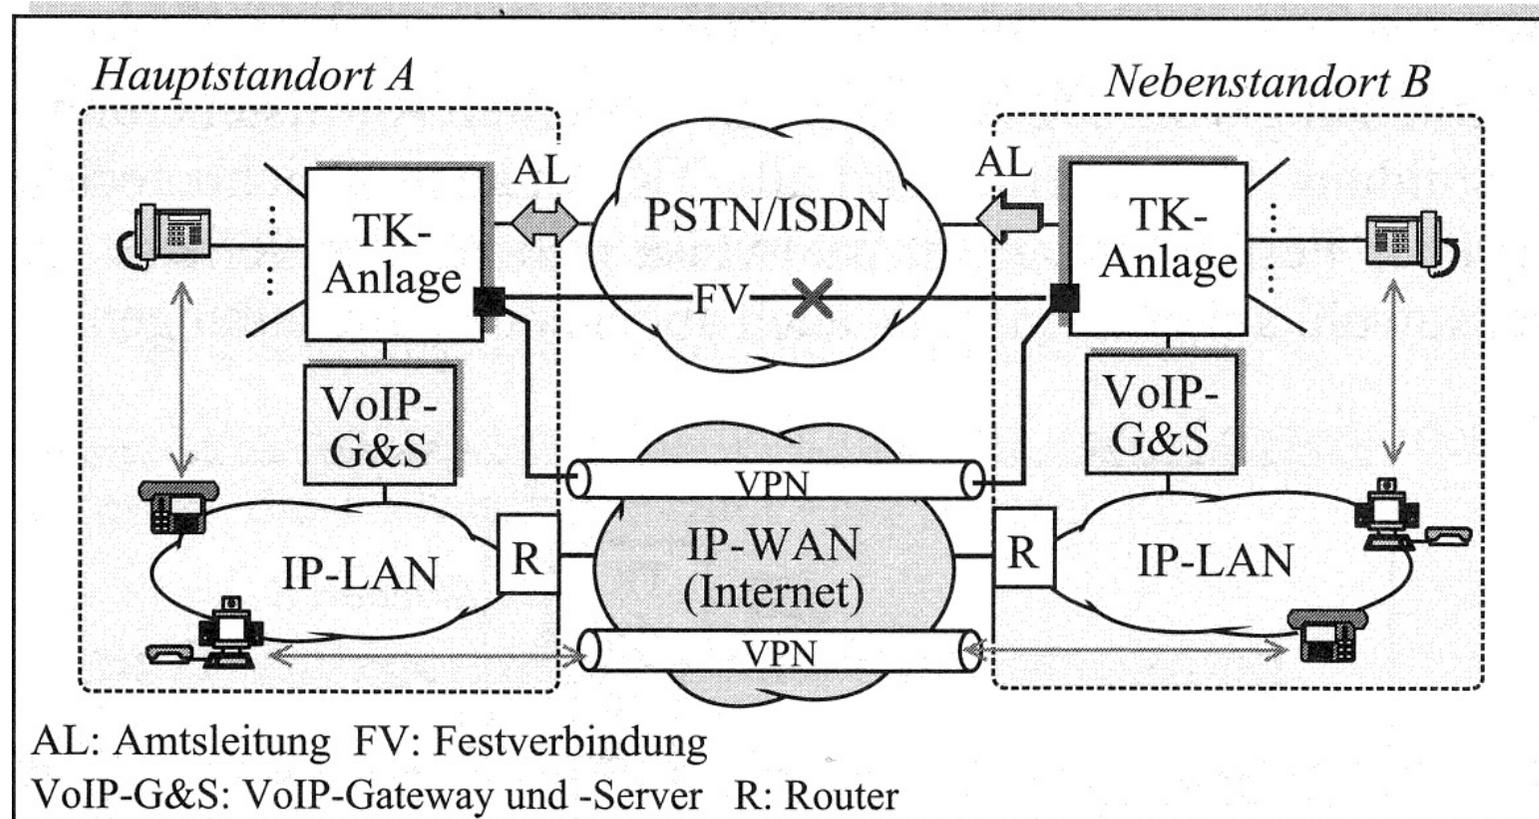

Hybride Architektur am Einzelstandort

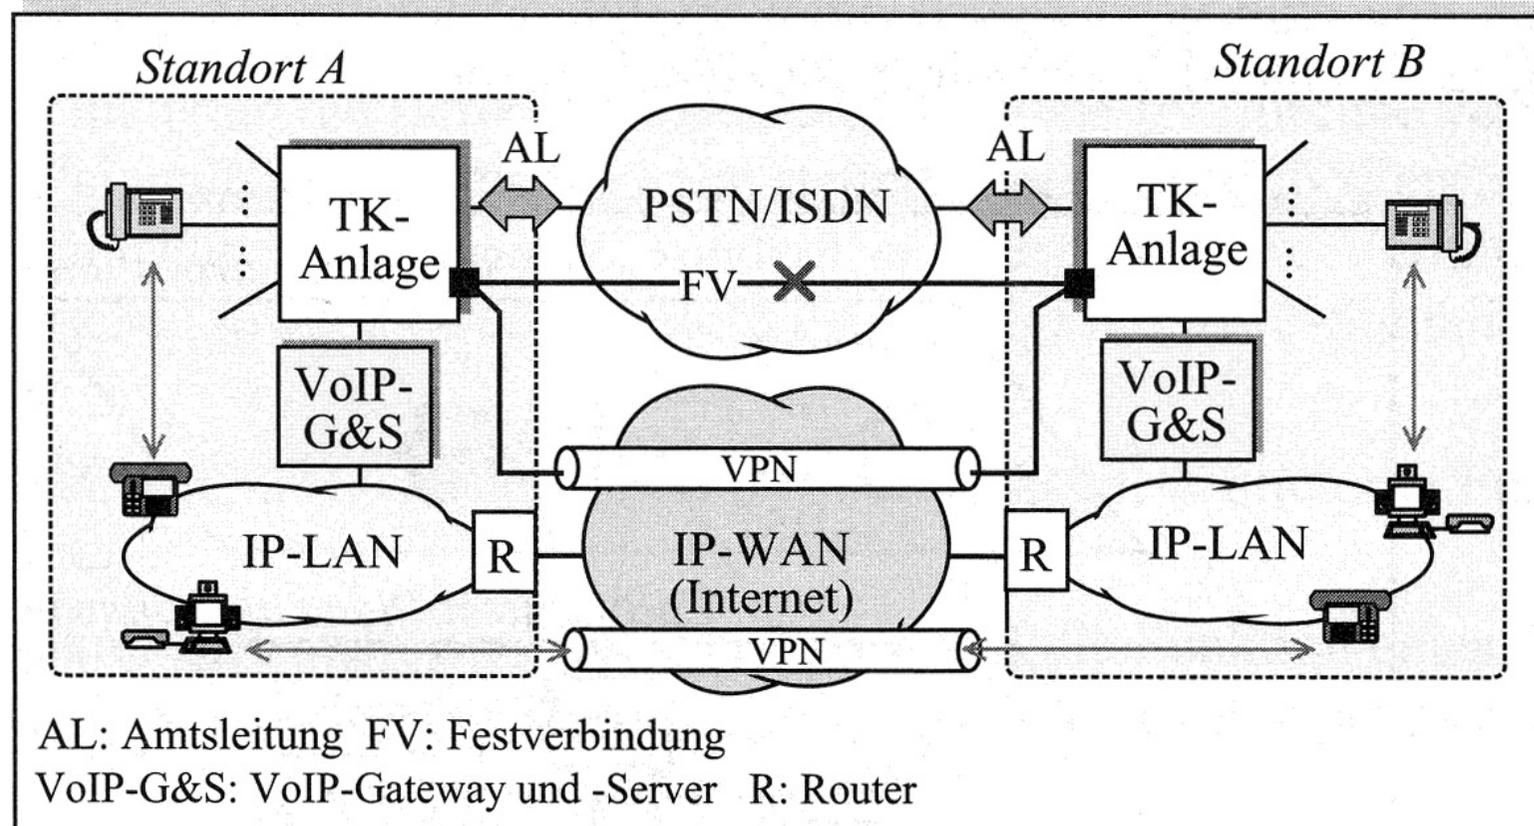

Hybride VoIP-Architektur an mehreren Orten

- mit zentraler Anrufsteuerung

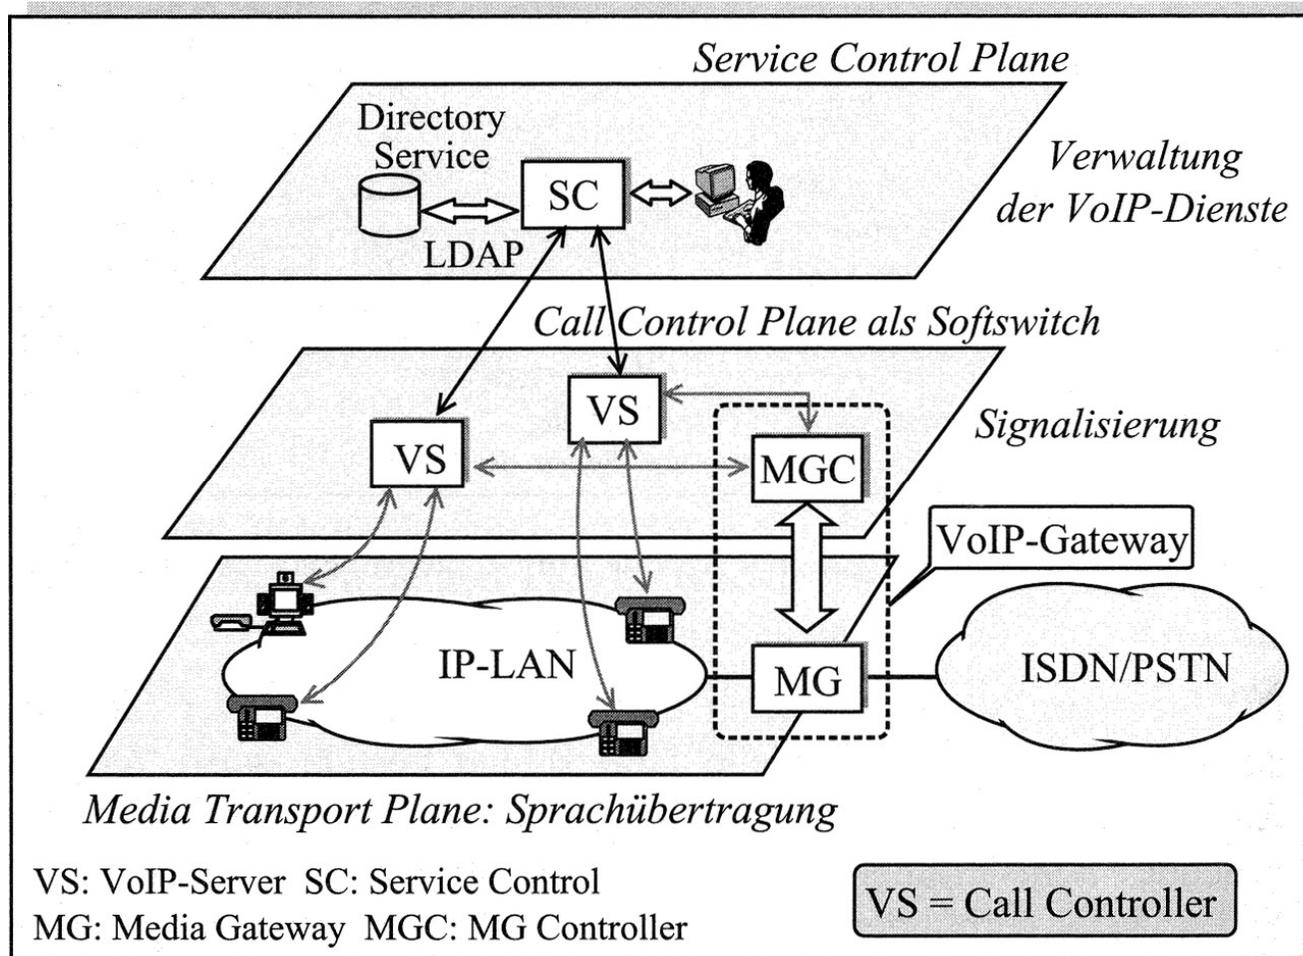

Hybride VoIP-Architektur an mehreren Orte

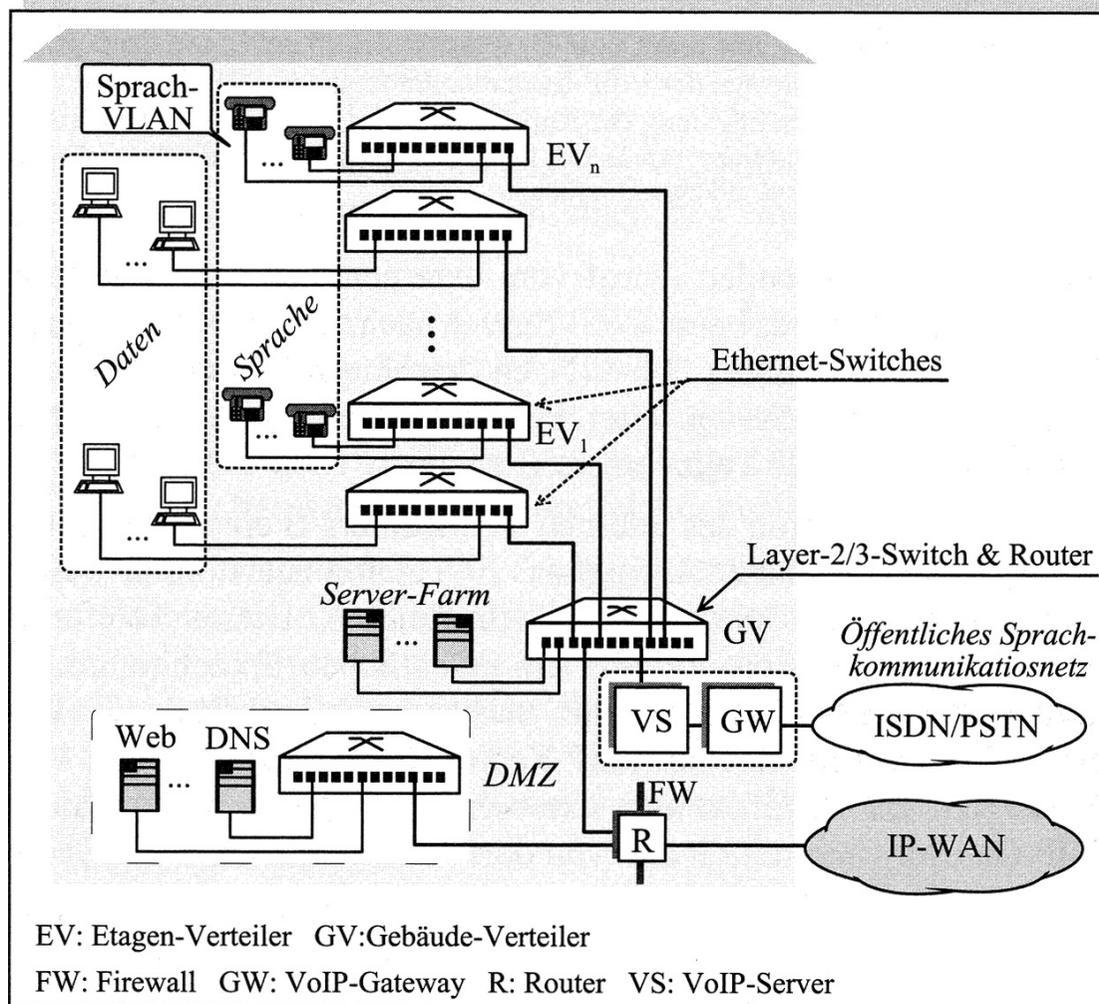

- mit verteilter Anrufsteuerung

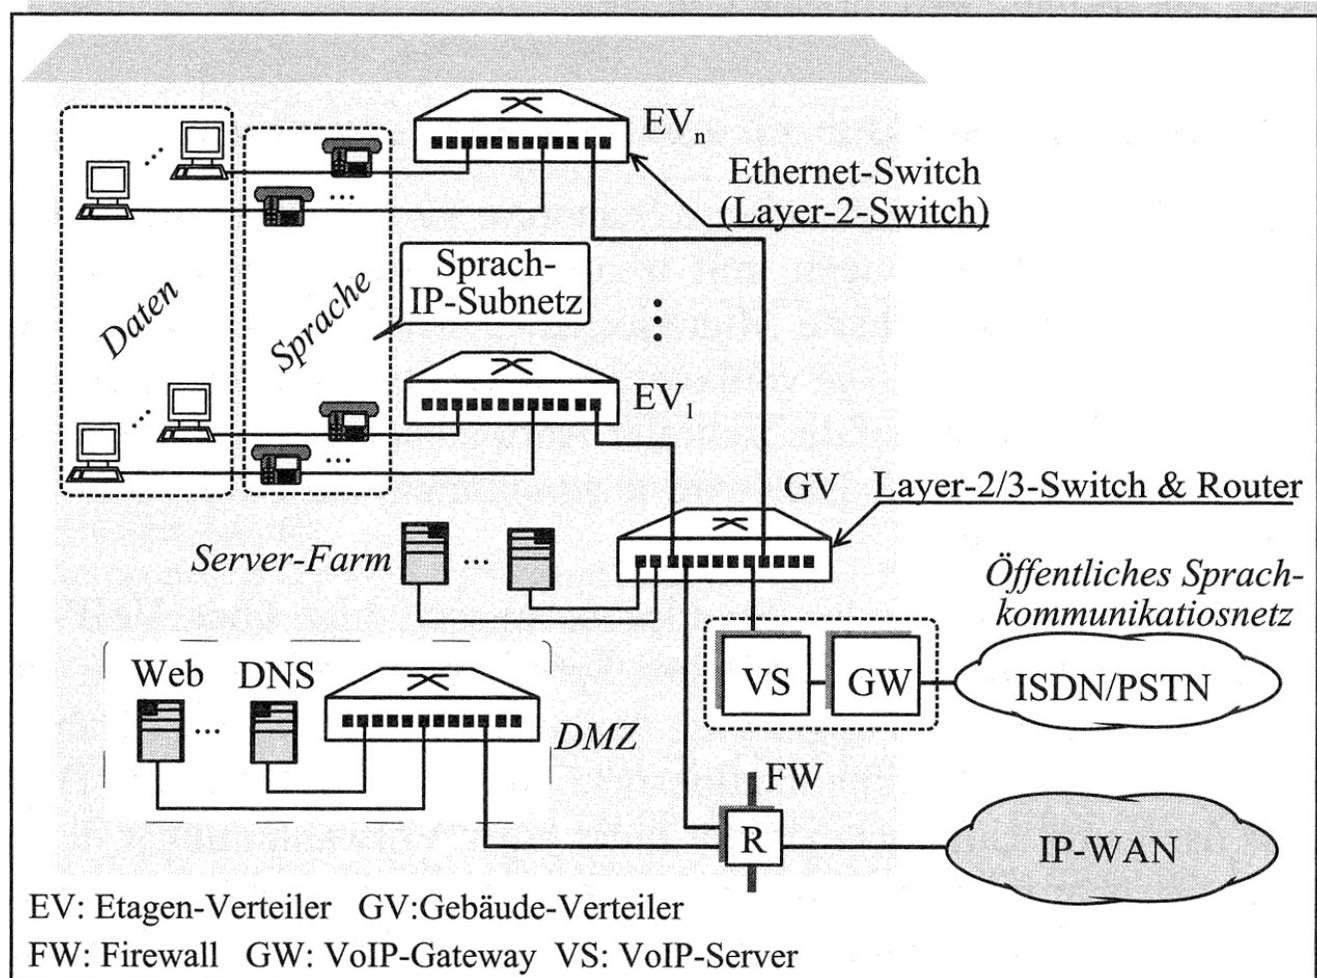

Reine VoIP-Architektur

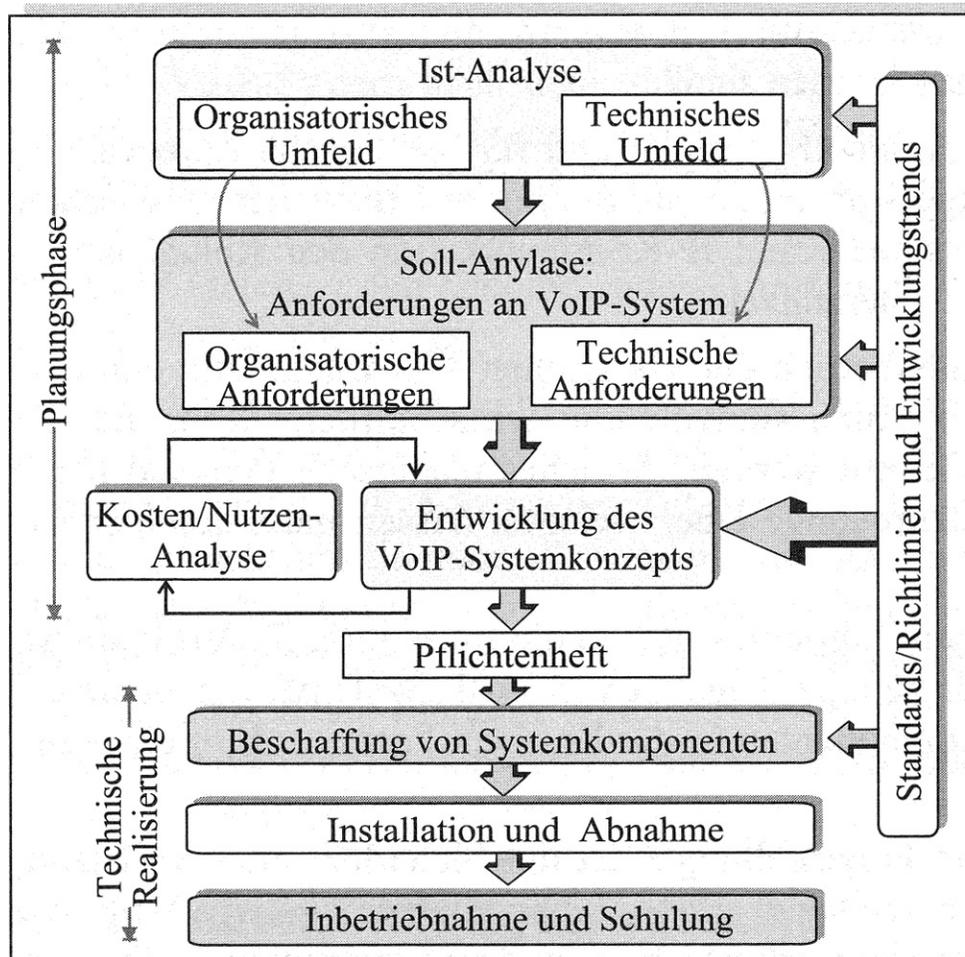

VoIP-Systeme: Getrennte Verkabelung

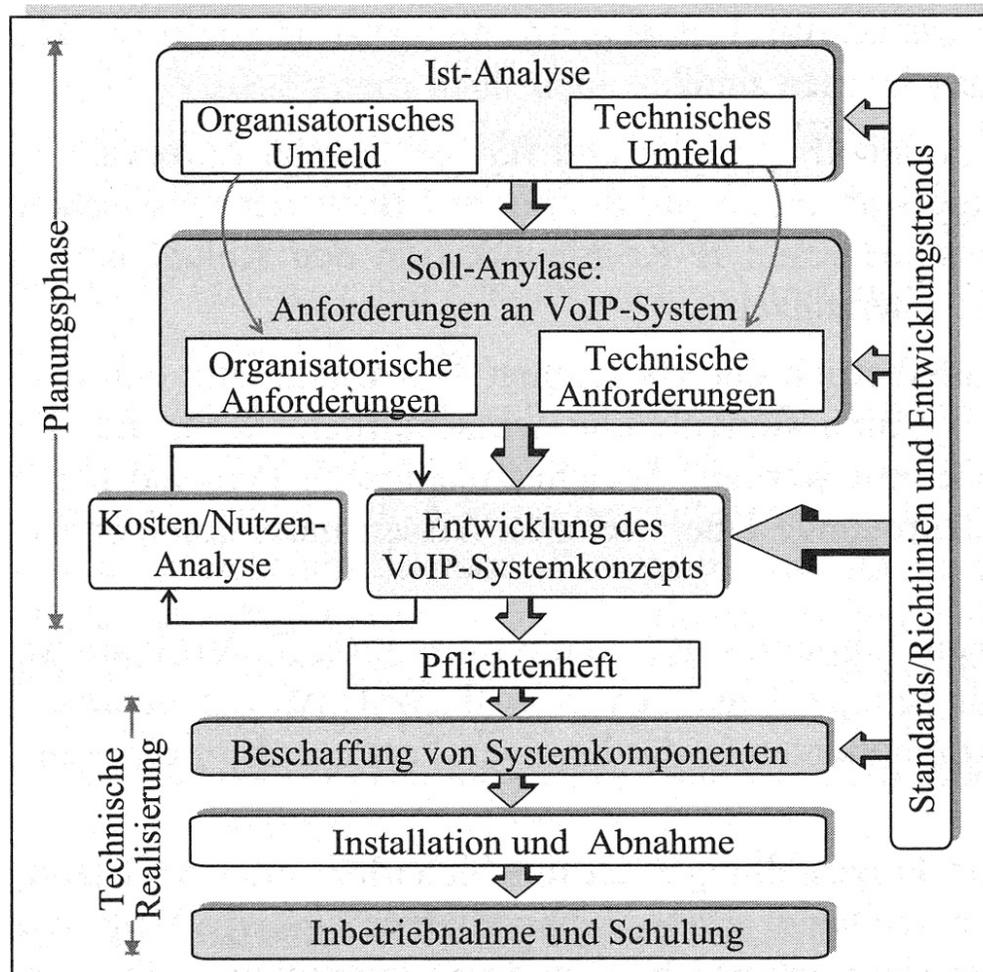

VoIP-Systeme: Gemeinsame Verkabelung

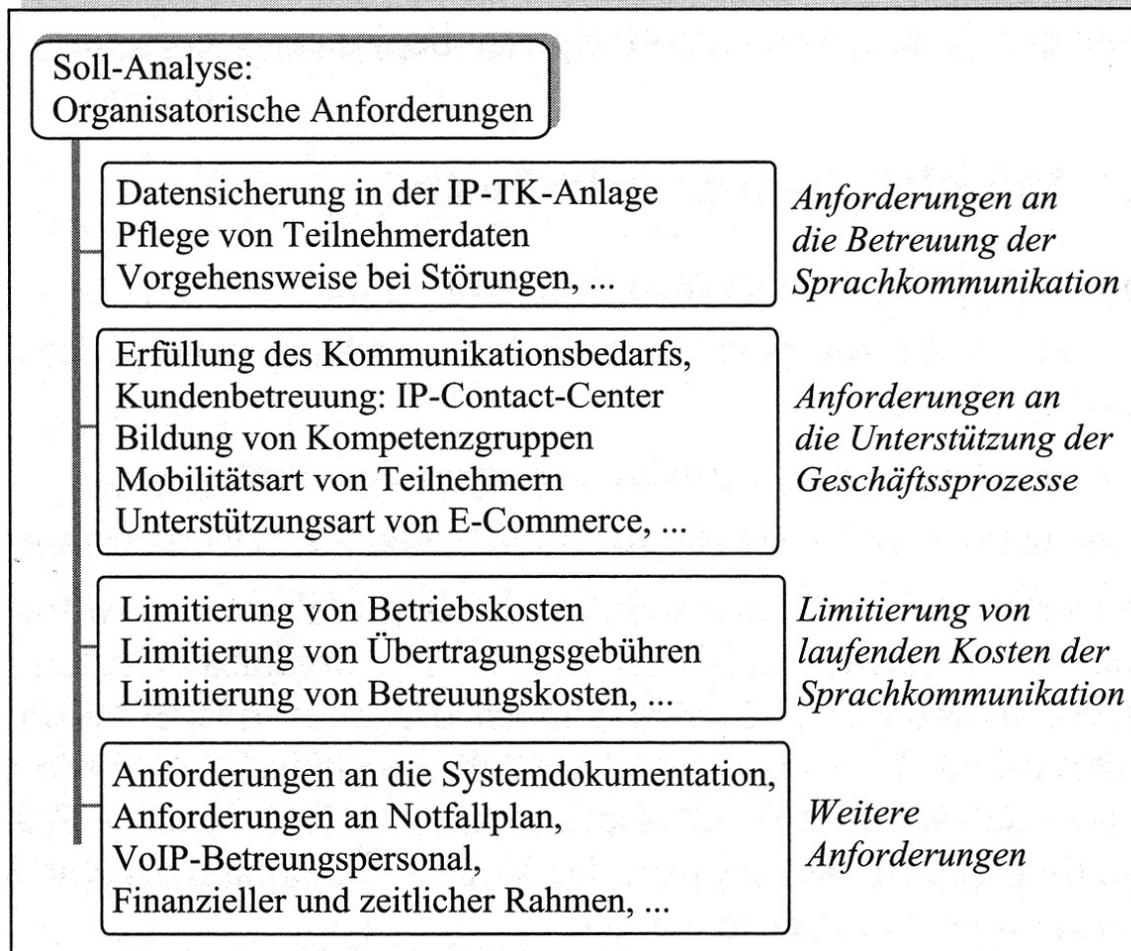

VoIP-Migration: Allgemeines Vorgehen

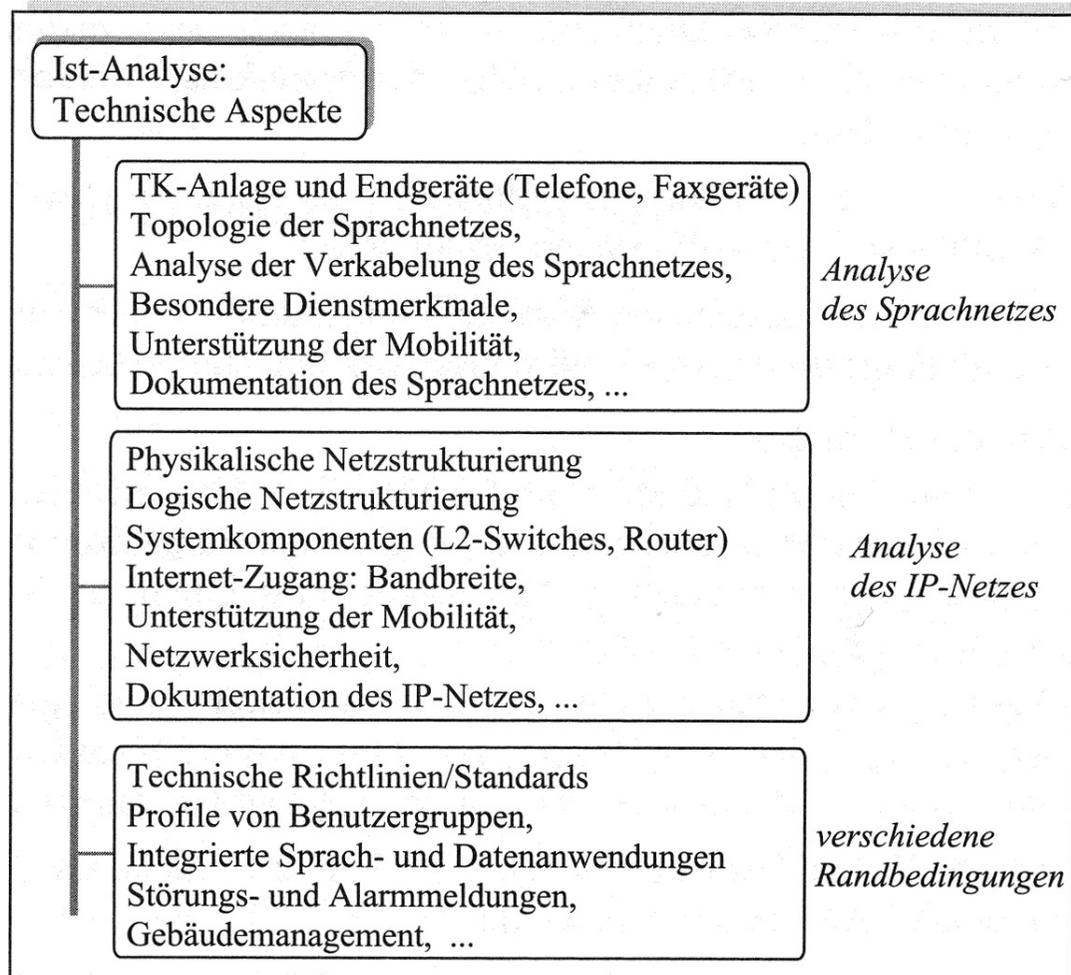

VoIP-Migration: Organisatorische Aspekte (1)

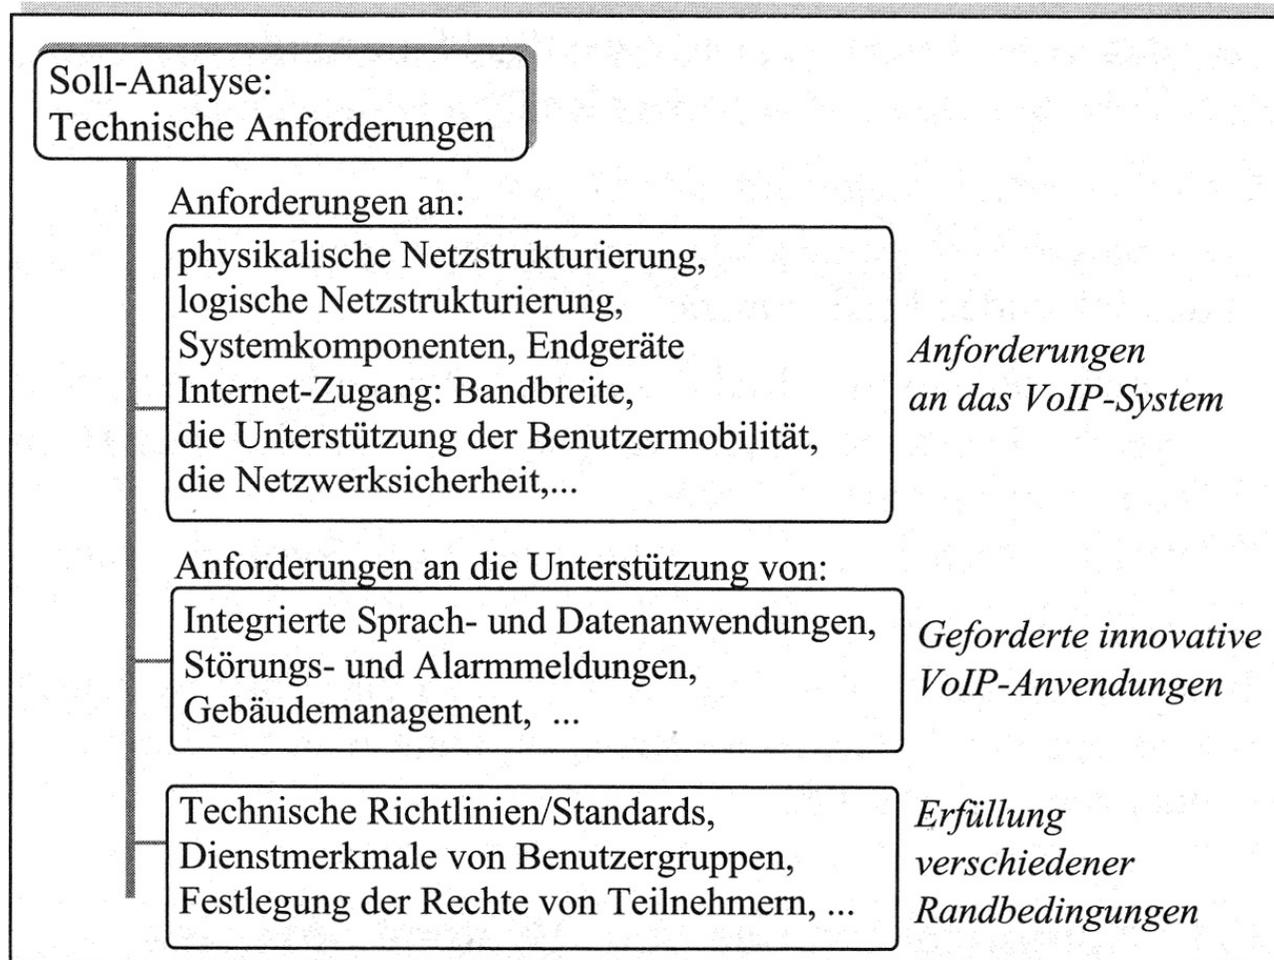

VoIP-Migration: Organisatorische Aspekte (2)

VoIP-Migration: Technische Aspekte (1)

VoIP-Migration: Technische Aspekte (2)

VoIP-Migration: Systemkonzept
